

CELLULOSE CHEMISTRY AND TECHNOLOGY

ADVANCES IN THE CHEMISTRY, PHYSICS AND TECHNOLOGY OF
POLYSACCHARIDES AND LIGNIN

45 ♦ 2011

1-2 ♦ JANUARY -
FEBRUARY

C O N T E N T S

MIKE KLEINERT, JAMES R. GASSON, INGVAR EIDE, ANN-MARI HILMEN and TANJA BARTH, Developing solvolytic conversion of lignin-to-liquid (LtL) fuel components: Optimization of quality and process factors	3-12
DIANA CIOLACU, FLORIN CIOLACU and VALENTIN I. POPA, Amorphous cellulose – structure and characterization	13-21
FRANTIŠEK POTŮČEK and MILOSLAV MILICHOVSKÝ, Rapeseed straw as a possible source of non-wood fibre materials	23-28
CORNELIA VASILE, CARMEN-MIHAELA POPESCU, MARIA-CRISTINA POPESCU, MIHAI BREBU and STEFAN WILLFOR, Thermal behaviour/treatment of some vegetable residues. IV. Thermal decomposition of Eucalyptus wood.....	29-42
MIHAI BREBU, GEORGETA CAZACU and OANA CHIRILA, Pyrolysis of lignin – a potential method for obtaining chemicals and/or fuels.....	43-50
D. CHEN, D. BERK, R. BERRY and G. J. KUBES, Effect of different wood species on the performance of surfactants used to improve the rate of kraft liquor penetration into chips.....	51-56
WEIPING BAN and ADRIAAN VAN HEININGEN, Adsorption of hemicellulose extracts from hardwood onto cellulosic fibers. I. Effects of adsorption and optimization factors.....	57-65
E. SABERIKHAH, J. MOHAMMADI ROVSHANDEH and P. REZAYATI-CHARANI, Organosolv pulping of wheat straw by glycerol.....	67-75

SOO HUEY NG, ARNIZA GHAZALI and CHEU PENG LEH, Anthraquinone-aided hydrogen peroxide reinforced oxygen delignification of oil palm (<i>Elaeis guineensis</i>) EFB pulp: A two-level factorial design.....	77-87
DANIEL TAVAST, ELISABETH BRÄNNVALL, MIKAEL E. LINDSTRÖM and GUNNAR HENRIKSSON, Selectiveness and efficiency of combined peracetic acid and chlorine dioxide bleaching stage for kraft pulp in removing hexeuronic acid	89-95
E. ARDELEAN, E. BOBU, GH. NICULESCU and C. GROZA, Effects of different consolidation additives on ageing behaviour of archived document paper	97-103
RALUCA NICU, ELENA BOBU and JACQUES DESBRIERES, Chitosan as cationic polyelectrolyte in wet-end papermaking systems.....	105-111
NIKOLA TANASIĆ, GORAN JANKES and HÅKON SKISTAD, Analytical investigation of airflow patterns within a papermaking machine hall.....	113-119
CORNELIU CINCUI, LAURENTIU FARA, ALEXANDRU RACOVITZĂ and LUCIAN LOBONT, Bioethanol obtained from wooden biomass. An appropriate alternative fuel for spark ignition engines.....	121-125
RALUCA NICOLETA DARIE, MARIA BERCEA, MAREK KOZLOWSKI and IULIANA SPIRIDON, Evaluation of properties of LDPE/oak wood composites exposed to artificial ageing.....	127-135
