

CELLULOSE CHEMISTRY AND TECHNOLOGY

ADVANCES IN THE CHEMISTRY, PHYSICS AND TECHNOLOGY OF
POLYSACCHARIDES AND LIGNIN

50 ♦ 2016

2 ♦ FEBRUARY

C O N T E N T S

- LIN MYAT and GI-HYUNG RYU, Pretreatments and factors affecting saccharification and fermentation for lignocellulosic ethanol production177-188
- BING ZHANG, YING GUAN, JING BIAN, FENG PENG, JUN-LI REN, CHUN-LI YAO and RUN-CANG SUN, Structure of hemicelluloses upon maturation of bamboo (*Neosinocalamus affinis*) culms189-198
- ELENA S. SASHINA, DMITRII A. KASHIRSKII and KONSTANTIN N. BUSYGIN, Dissolution of cellulose with pyridinium-based ionic liquids: Effect of chemical structure and interaction mechanism.....199-211
- JUHA FISKARI, OLGA DERKACHEVA, TUOMAS KULOMAA and DMITRI SUKHOV, Quick non-destructive analysis of lignin condensation and precipitation by FTIR213-217
- BHAVANA V. MOHITE, RAHUL K. SURYAWANSHI and SATISH V. PATIL, Study on the drug loading and release potential of bacterial cellulose219-223
- BO HONG, FANG CHEN and GUOXIN XUE, Preparation and characterization of cellulose nanocrystals from bamboo pulp225-231
- MUHAMMAD USMAN MINHAS, MAHMOOD AHMAD, SHAHZEB KHAN, LIAQAT ALI and MUHAMMAD SOHAIL, Synthesis and characterization of β -cyclodextrin hydrogels: Crosslinked polymeric network for targeted delivery of 5-fluorouracil233-242
- J. M. T. S. ROCHA, B. R. A. ALENCAR, H. G. MOTA and E. R. GOUVEIA, Enzymatic hydrolysis of waste office paper for ethanol production by *Spathaspora passalidarum*.....243-246

| | |
|---|---------|
| HAO REN, XIN DAI and SHIGETOSHI OMORI, Preparation of biodiesel and separation of hemicellulose from soap skimmings..... | 247-255 |
| ZHEN-YUAN ZHU, YANG LI, HUI-QING SUN, LI-JING CHEN, YA-LI TANG, XIAO-CUI LIU and YONG-MIN ZHANG, Screening of <i>Cordyceps</i> strains and optimization of its solid-state fermentation conditions on bioconversion of <i>Astragalus</i> residues | 257-263 |
| MASAHIRO MIURA, TSUTOMU SUZUKI and MASAKAZU AOYAMA, Detoxification of Japanese white birch wood hemicellulose hydrolysate with a carbonaceous sorbent prepared from birch wood hydrolysis residue | 265-268 |
| TEMENUZHKA HR. RADOYKOVA, GRETA V. RADEVA and SANCHI K. NENKOVA, Comparative kinetic analysis of poplar biomass alkaline hydrolysis..... | 269-274 |
| OMAR L. M. KAMOGA, J. B. KIRABIRA, J. K. BYARUHANGA, R. D. GODIYAL and KUMAR ANUPAM, Characterisation and evaluation of pulp and paper from selected Ugandan grasses for paper industry | 275-284 |
| FARHAD ZEINALY, MEHRAN KARIMI, JALAL SHAKHES and HOSEIN MOHAMMADI, Improving the bleaching process of hardwood chemi-mechanical pulp | 285-292 |
| RAGHU DESHPANDE, LARS SUNDVALL, HANS GRUNDBERG and ULF GERMGÅRD, Initial phase of sodium bisulfite pulping of spruce. Part I | 293-300 |
| LI-PING XIN, XIN-SHENG CHAI, HUI-CHAO HU, CHUN-XIA CHEN and RUN-QUAN CHEN, Classification of virgin and virgin-recycled fiber blend hygienic tissue paper by multivariate analysis | 301-309 |
| ABHISHEK S. PATNAIK and JILLIAN L. GOLDFARB, Continuous activation energy representation of the Arrhenius equation for the pyrolysis of cellulosic materials: Feed corn stover and cocoa shell biomass..... | 311-320 |
| SHUMAILA HAMEED, MUHAMMAD AJAZ HUSSAIN, RASHID MASOOD and MUHAMMAD TAHIR HASEEB, Cross-linking of cotton fabric using maleic anhydride and sodium hypophosphite | 321-328 |
| NURUL SYUHADA SULAIMAN, ROKIAH HASHIM, SALIM HIZIROGLU, MOHD HAZIM MOHAMAD AMINI, OTHMAN SULAIMAN and MOHD EZWAN SELAMAT, Rubberwood particleboard manufactured using epichlorohydrin-modified rice starch as a binder..... | 329-338 |
| DUMITRU BULGARIU, GABRIELA NACU (RUSU), TEODOR MALUTAN and LAURA BULGARIU, Kinetic study of lead(II) removal from aqueous solution onto lignin-based materials..... | 339-347 |
