

CELLULOSE CHEMISTRY AND TECHNOLOGY

ADVANCES IN THE CHEMISTRY, PHYSICS AND TECHNOLOGY OF
POLYSACCHARIDES AND LIGNIN

43 ♦ 2009

9-10 ♦ OCTOBER -
DECEMBER

C O N T E N T S

PETER ZUGENMAIER, Contribution to the historical development of macromolecular chemistry – exemplified on cellulose	351-378
MICHAEL IOELOVICH and ALEX LEYKIN, Accessibility and supermolecular structure of cellulose	379-385
PU MA, KWEI-NAM LAW and CLAUDE DANEALULT, Influence of oxidation on intrinsic fiber strength	387-392
SHUAI ZHANG, FA-XUE LI and JIAN-YONG YU, Preparation of cellulose/chitin blend bio-fibers via direct dissolution	393-398
TODORCIUC TATIANA, ADINA-MIRELA CĂPRARU, IRENA KRATOCHVÍLOVÁ and VALENTIN I. POPA, Characterization of non-wood plant lignin and its hydromethylated derivatives by spectroscopy and self-assembling investigations.....	399-408
ADINA-MIRELA CĂPRARU, VALENTIN I. POPA, TEODOR MĂLUȚAN and GABRIELA LISĂ, Contribution to the modification and characterization of different types of lignin	409-418

NAHED A. ABD EL-GHANY, Organosolv pulping of cotton linters	419-426
MARTA URSESCU, GABRIELA LISĂ, CORINA MĂLUȚAN and SORIN CIOVICĂ, Influence of gall ink composition on thermal stability of paper.....	427-434
A. MURESAN, ANGELA CEREMPEI, SIMONA DUNCA, RODICA MURESAN and R. BUTNARU, Aromatherapeutic characteristics of cotton fabrics treated with rosemary essential oil	435-442
BRIAN CONDON, MICHAEL EASSON, VAL YACHMENEV, ALLAN LAMBERT CHRIS DELHOM and JADE SMITH, Application of a low-level, uniform ultrasound field for the acceleration of enzymatic bio-processing of cotton	443-453
S. M. MOSTASHARI and S. Z. MOSTASHARI, Thermogravimetry of deposited ammonium aluminum sulfate dodecahydrate used as flame-retardant for cotton fabrics.....	455-460
Events.....	461-464
