

Call for Abstracts for the Symposium

Polysaccharide-Based Hydrocolloids

CELLULOSE & RENEWABLE MATERIALS (CELL) DIVISION
American Chemical Society
ACS Spring National Meeting & Exposition

San Diego, CA, March 25-29, 2012

Under the ACS National Meeting theme “*Chemistry of Life*” the CELL division offers the symposium “Polysaccharide-Based Hydrocolloids”.

Abstract submission to this symposium is welcome under topics such as:

1. Hydrocolloids with advanced properties
2. Advanced characterization of hydrocolloids
3. Hydrocolloids in food applications
4. Hydrocolloids in medical and pharmaceutical applications
5. New functionalization concepts for hydrocolloids
6. Bioactive polysaccharides
7. Hydrocolloid technology
8. Multicomponent hydrocolloid systems
9. Nanomaterials, emulsions, sols and gels.
10. Hydrocolloids and biomimetics
11. Hydrocolloids preparation, interactions, stabilization, destabilization

For further information please contact symposium organizers:
Pedro Fardim (pfardim@abo.fi) and Orlando Rojas (ojrojas@ncsu.edu),

More information about the CELL division program is available at:
<http://cell.sites.acs.org/springprogram.htm>

For abstract submission go to:
<http://abstracts.acs.org>.

Deadline for abstract submission is **October 17th, 2011**.
